Interesting Facts Gathered During the Week by Our Regular Correspondents.

Ulysses.

I wish to correct an error in regard to the item which I wrote to the NEWS last week, which gave the weight of the infant born to Sandford Chandler and wife, of Lowmansville, to be 20 pounds. Upon personal investigation later I find it to be an exaggeration, of which I am neither the originator nor the author. While at first the report seemed to me to be incredible, I was told by others at the postoffice that it was certainly true and so accepted it as reliable and gave it to the NEWS just as it was given to me. I admit I was very remiss in not saying to the NEWS that I was thus informed, which I usually make it a point to do when I do not personally know a report to be true, but in this instance I failed to do so and for which neglect I have been much chagrined.

It is and always has been my intention as a correspondent to make plain, concise statements without exaggeration or color.

So hoping you will be kind enough to give me a little space in your paper to extricate myself from this unenviable position, I leave the matter with you to use as much or as little of this statement as you think best, or if you prefer to make a few brief remarks in my favor instead of using this I certainly will appreciate the favor. Respectfully,

Your Correspondent at Ulysses.

P. S.—While I have not yet seen Mr. Chandler or his wife since the birth of the child, I have seen the mother of Mr. Chandler, who is reliable authority and who informed me that the report which had been circulated at this place was unfounded, but that Mrs. Chandler's case was indeed very critical on account of convulsions after the birth of her child. She said Mrs. Chandler had ten convulsions, and for this reason two doctors instead of three were summoned to treat her. The doctors were Preston, of Lowmansville, and Castle, of Nippa, Johnson county.

WASHINGTON ONCE GAVE UP to three doctors; was kept in bed for five weeks. Blood poison from a spider's bite caused large, deep sores to cover his leg. The doctors failed, then "Bucklen's Arnica Salve" completely cured me," writes John Washington, of Bosqueville, Tex. For eczema, boils, burns and piles it's supreme. 25c at A. M. Hughes.

You can come through next time."

Cam says, "Yes, after you are beat or elected everybody is for you—after it is too late to do you any good."

It is no pleasant thing for a good man to be connected with politics. A man to make a politician must be of this type: one that don't care to lie; one who cares not to betray his fast friends; one that has money and don't care to spend it, or one has no money and don't want any. If a man gets into a campaign with nothing he is not hurt. Therefore if a man wants to keep clean and save his money he should keep out of county politics."
